LT-OBSERVATORY

Language Infrastructure and Language Resources: Pulling the Pieces of the Jigsaw Together

www.lt-observatory.eu

Andrew Joscelyne, Senior Advisor at LT-Innovate

Speakers

- **Bart Wloka** (Vienna) *Improving the Usability of Existing Resources & Speeding up New Resource Creation*
- **Matthias Heyn** (SDL) *In-domain LRs – a Survey of Industry Needs*
- **Gareth Morlais** (Welsh Government) *The Case for Generating LRs for Less-Used Languages*

The LT-Observe Language Data Resources (LR) for MT Catalogue: Let's Improve It

- The **first dedicated online EU catalogue** of Language Data Resources for MT (LR4MT)
- Focus on **usability** (not generality) & **new translation needs**
 - Identify & fill the gaps, broad vision
- Involve the **value chain**
 - Research – building next gen. tools for LR leveraging
 - Innovation – using LT Cloud to build new solutions
 - National resources across EU (where are they?)
 - Synergy with CEF.AT LR activities
 - The translation industry and big data translation
- Leverage the **LT Cloud**
 - Technology stack, learn from data, get industrial
- **How can you help?**
